

Graphic Controls Well Logging Papers

With over 60 years of supplying the Petroleum and Natural Gas industries, Graphic Controls knows what it takes to meet the rugged demands of our customers in the field.

Graphic Controls Well Logging papers maximize the performance of your well logging printer.

Our brighter papers provide better contrast and a vivid image that's easier to read and interpret.

- Fanfold, fanfold on roll, and roll products available
- Precision Perforation Technology for cleaner tearaway
- Brighter paper for better contrast
- Products to fit iSys, Printrex, Neuralog, Canon, Hewlett Packard, Well Green Tech and other popular printers

See The
VIVID Difference

The Best Images Are **VIVID**

THERMAL WELL LOGGING PAPERS

Premium Thermal:

Durable and bright. Very good thermal response.

Top Coated Thermal:

Protective top coating provides better durability and increased thermal response.

Heavyweight Top Coated Thermal:

Best protective top coating for our most durable well logging products. Best thermal response for the sharpest image.

Graphic Controls Well Logging papers maximize the performance of your well logging printer. Our brighter papers provide better contrast and a vivid image that's easier to read and interpret.
